# STEP 1

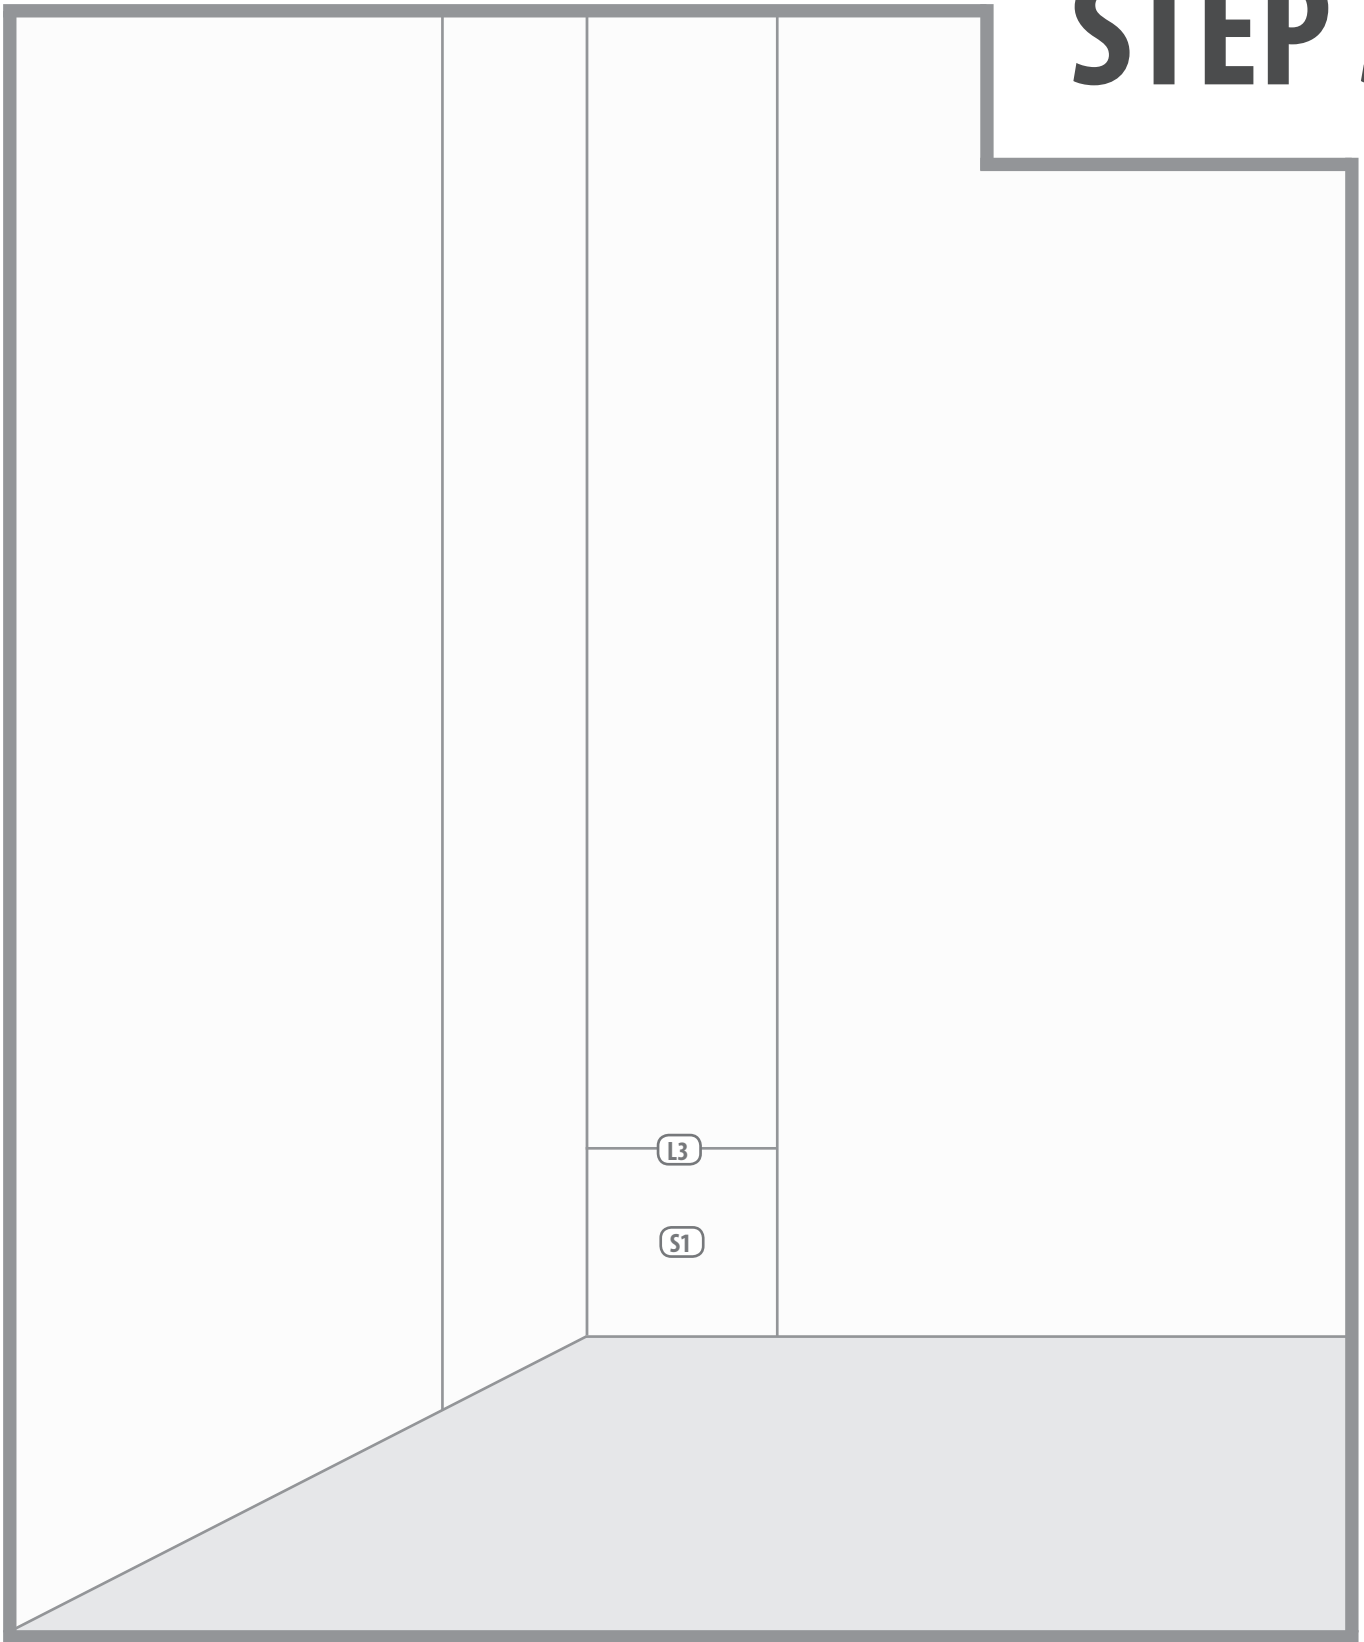

Using your hard graphite pencil, draw a line from the top of the right wall of your corner to the floor. This line should be a distance from the corner equivalent to  $\frac{3}{16}$  of the height of your wall and perpendicular to the floor. Label this line L1.

# STEP 2

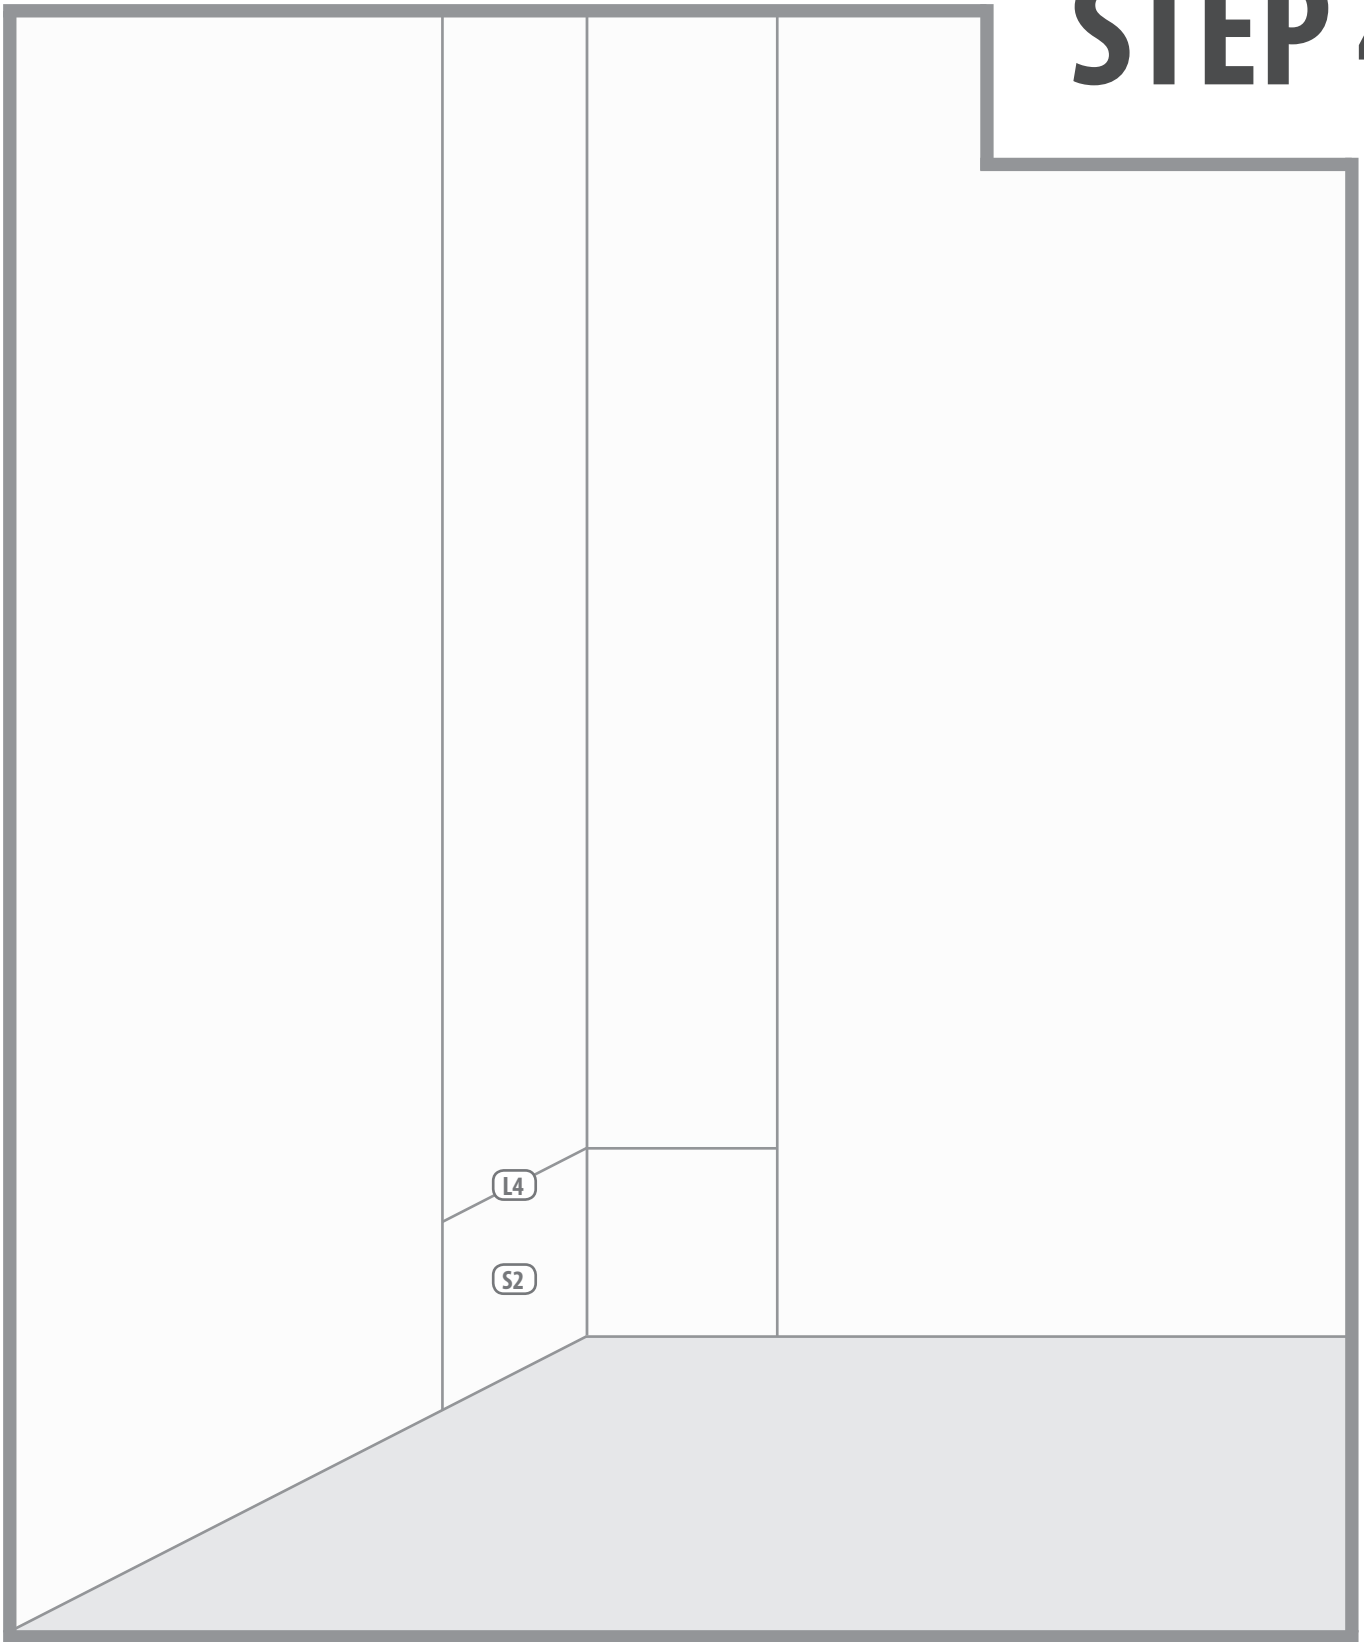

Repeat Step 1 on the left wall of your corner. Label this line L2.

# STEP 3

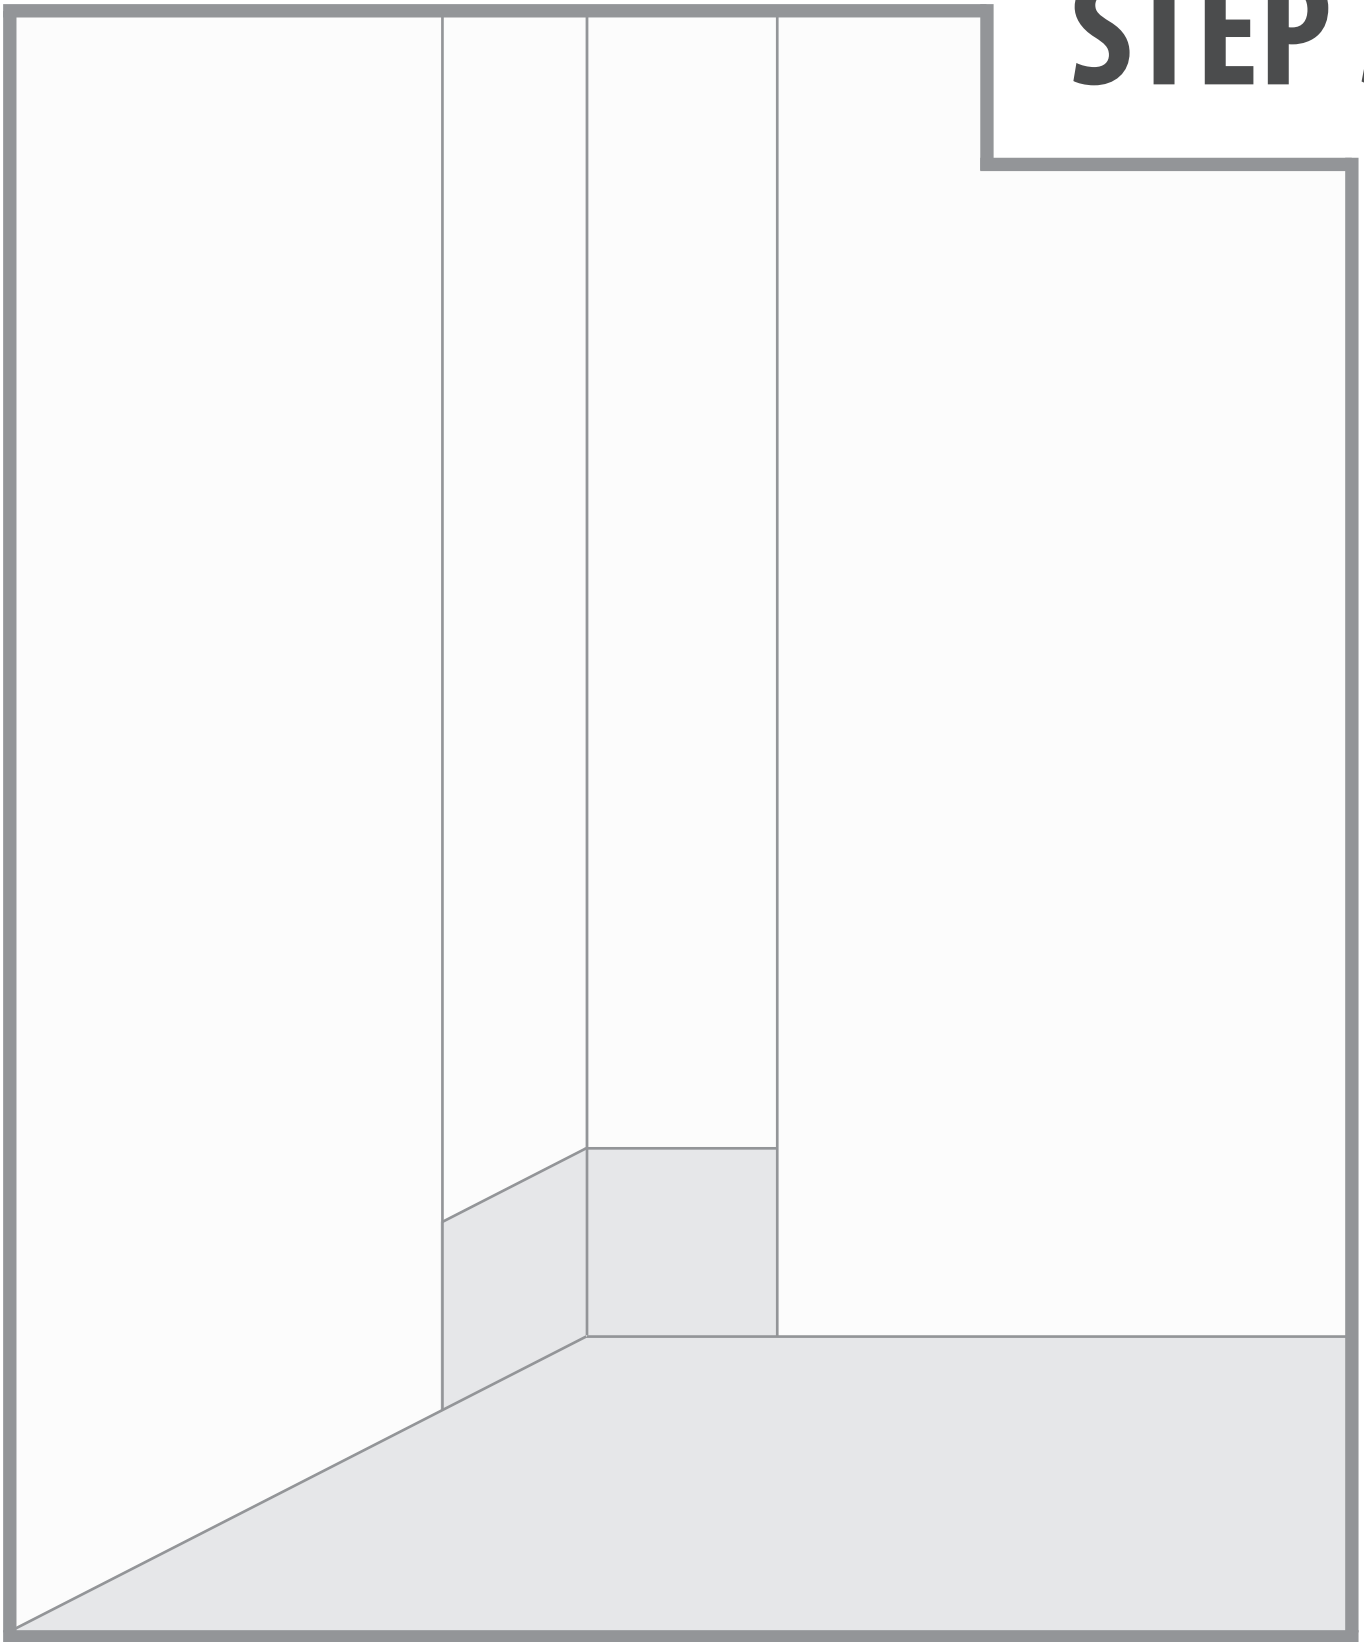

Using your hard graphite pencil, draw a line on the right wall of your corner parallel to the floor that creates a square with your corner edge, floor and L1. Label this line L3 and this square S1.

# STEP 4

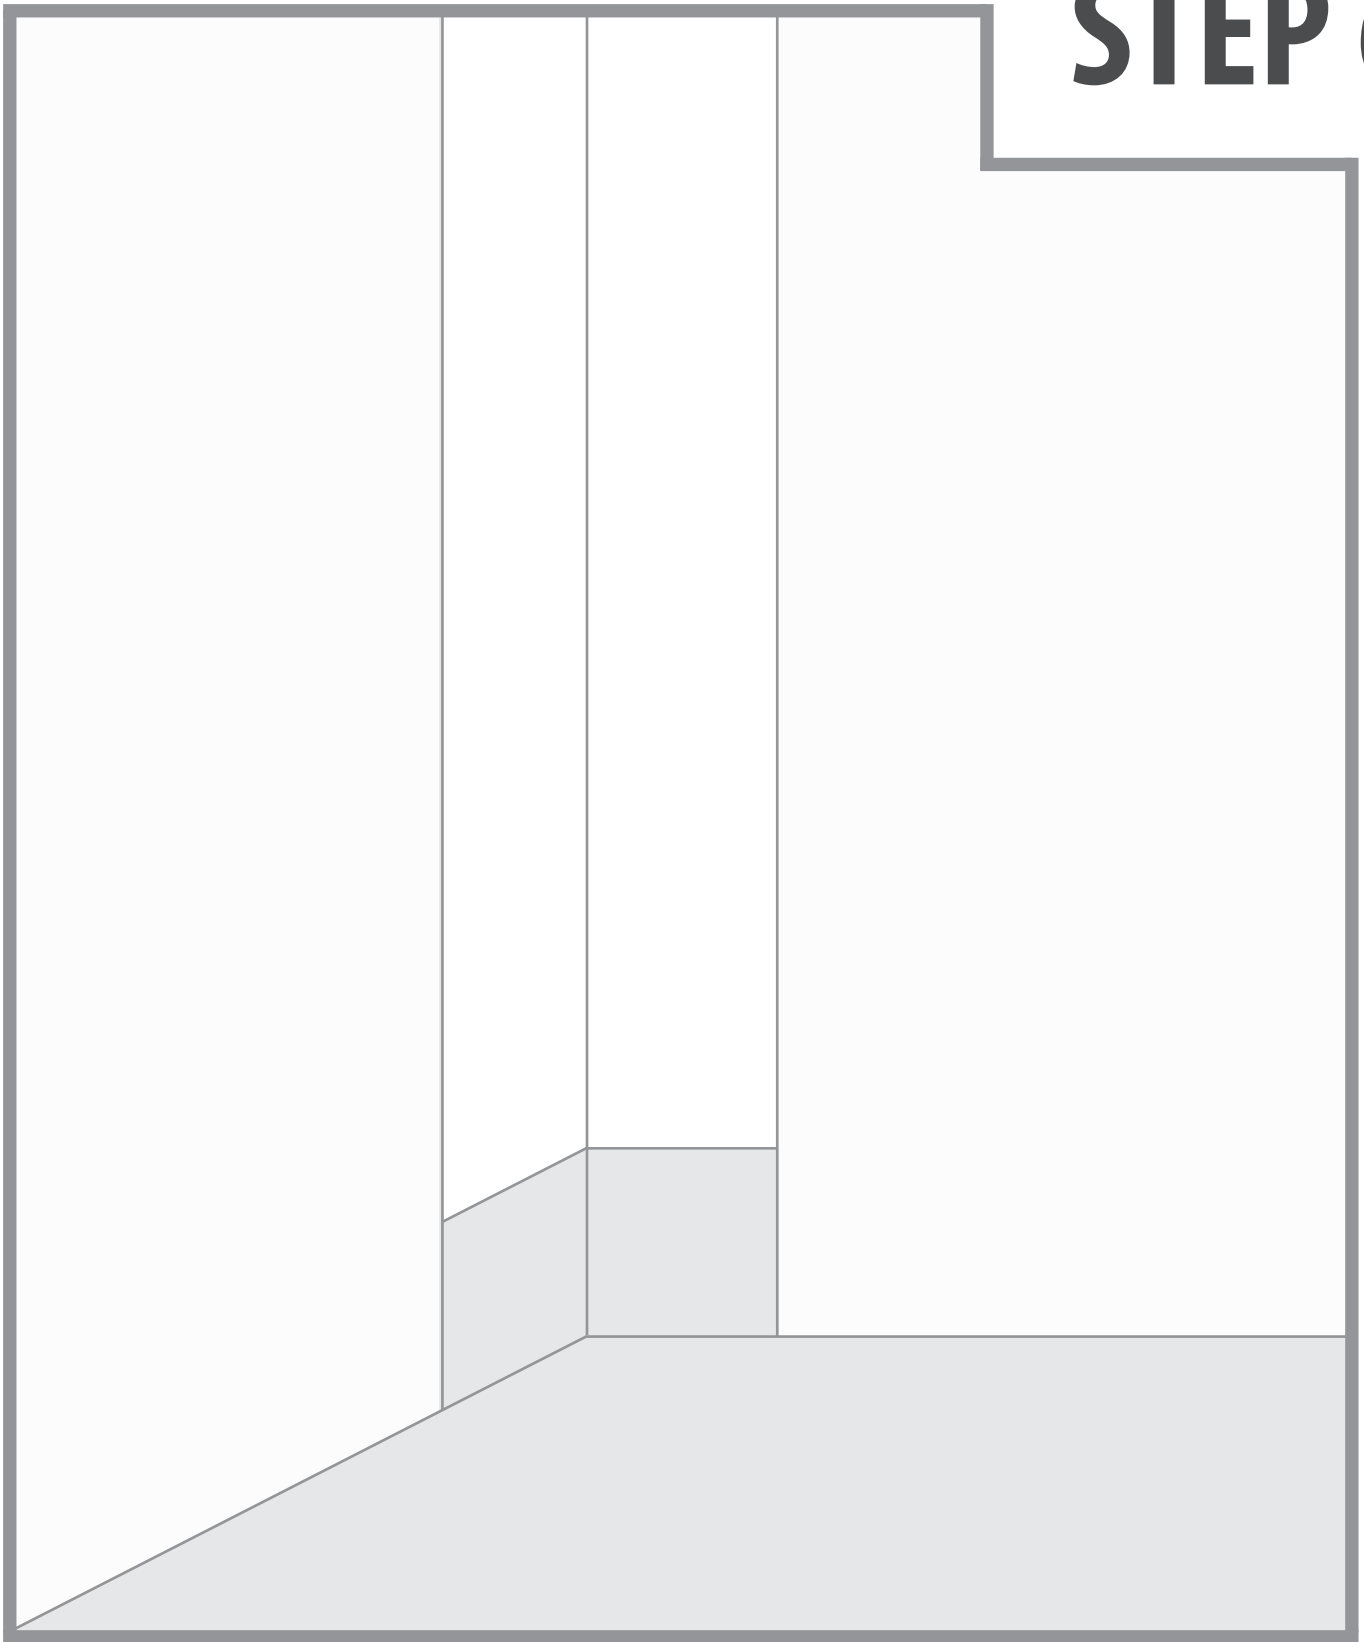

Repeat Step 3 on the left wall of your corner. Label this line L4 and this square S2.

# STEP 5

Using at least two coats of your paint the color of your floor, fill S1 and S2.

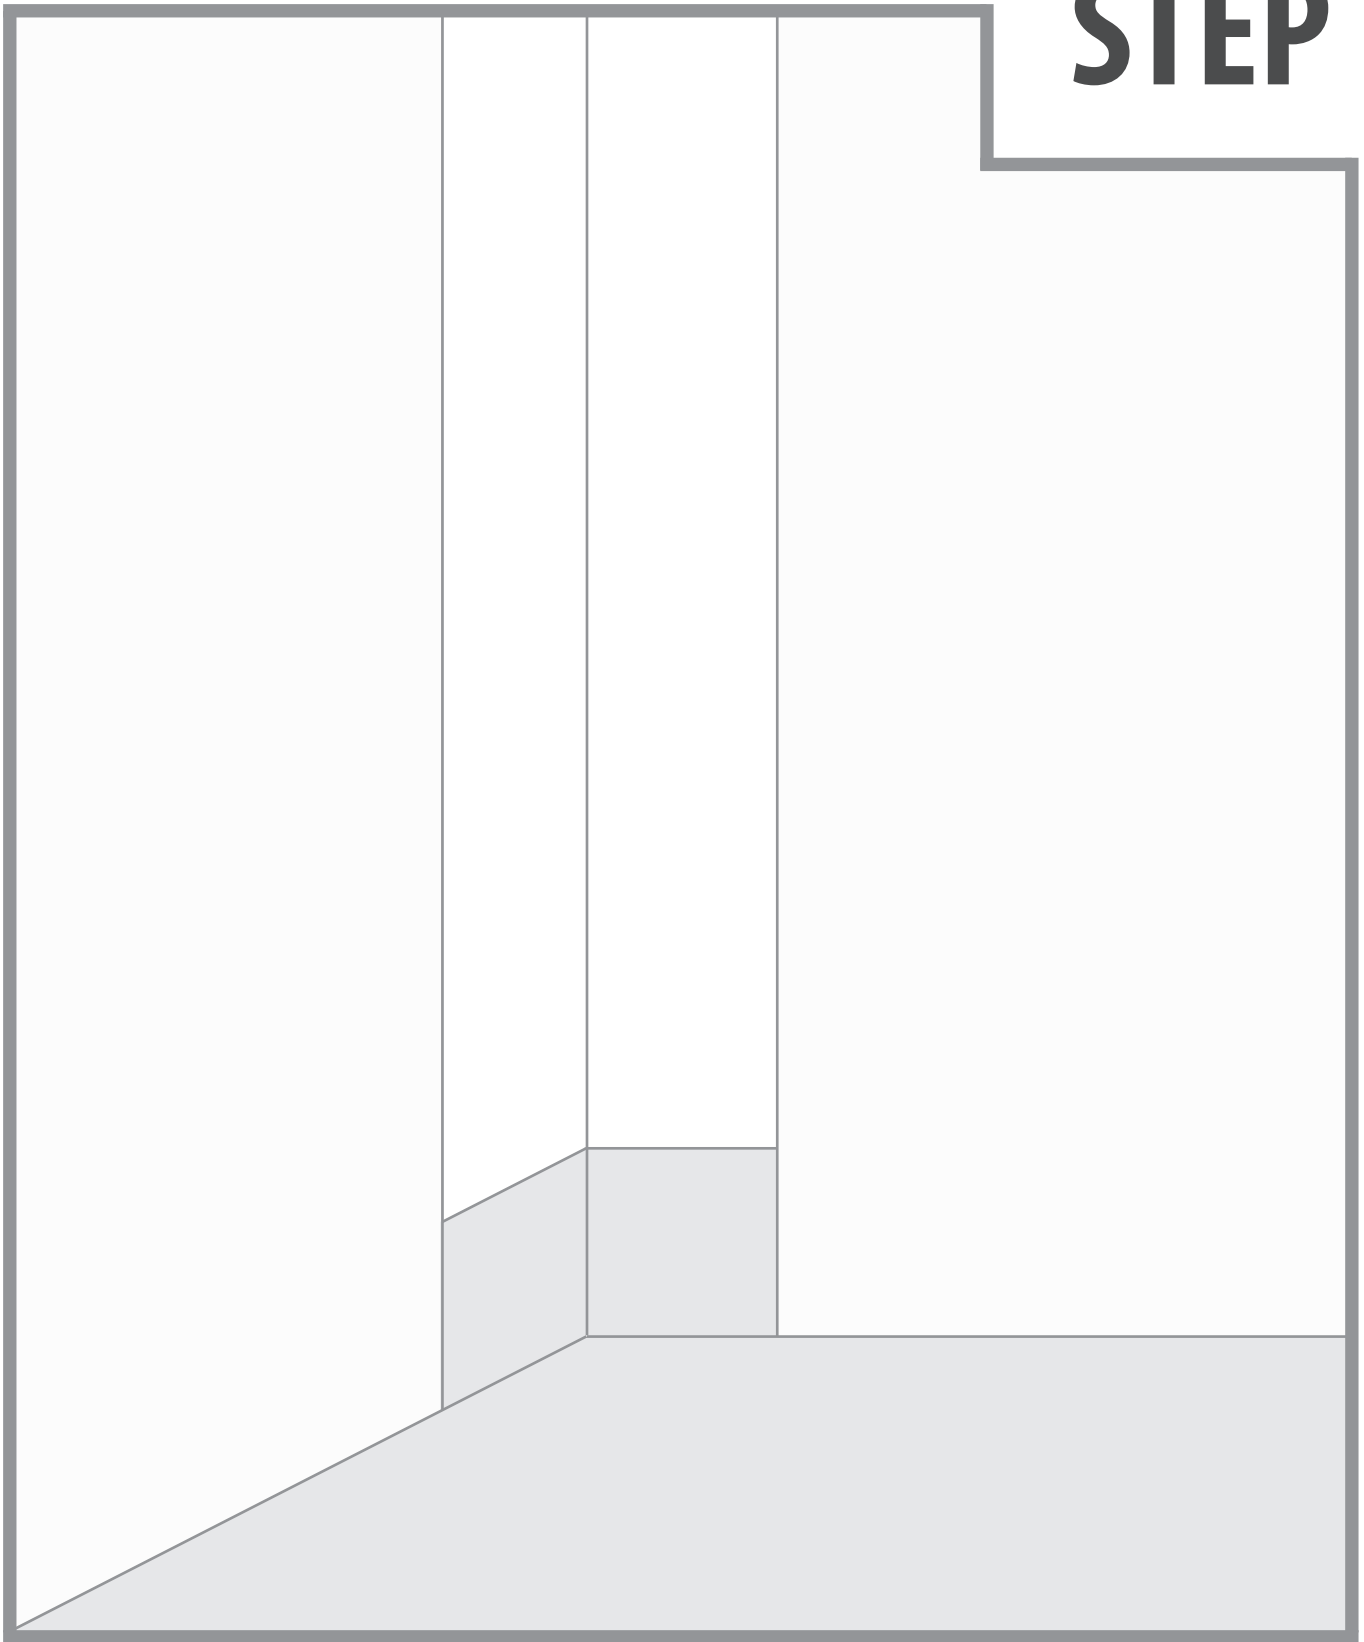

# STEP 6

Using at least two coats of your flat white paint, fill the rectangles formed by your corner, L1 and L2 above S1 and S2.

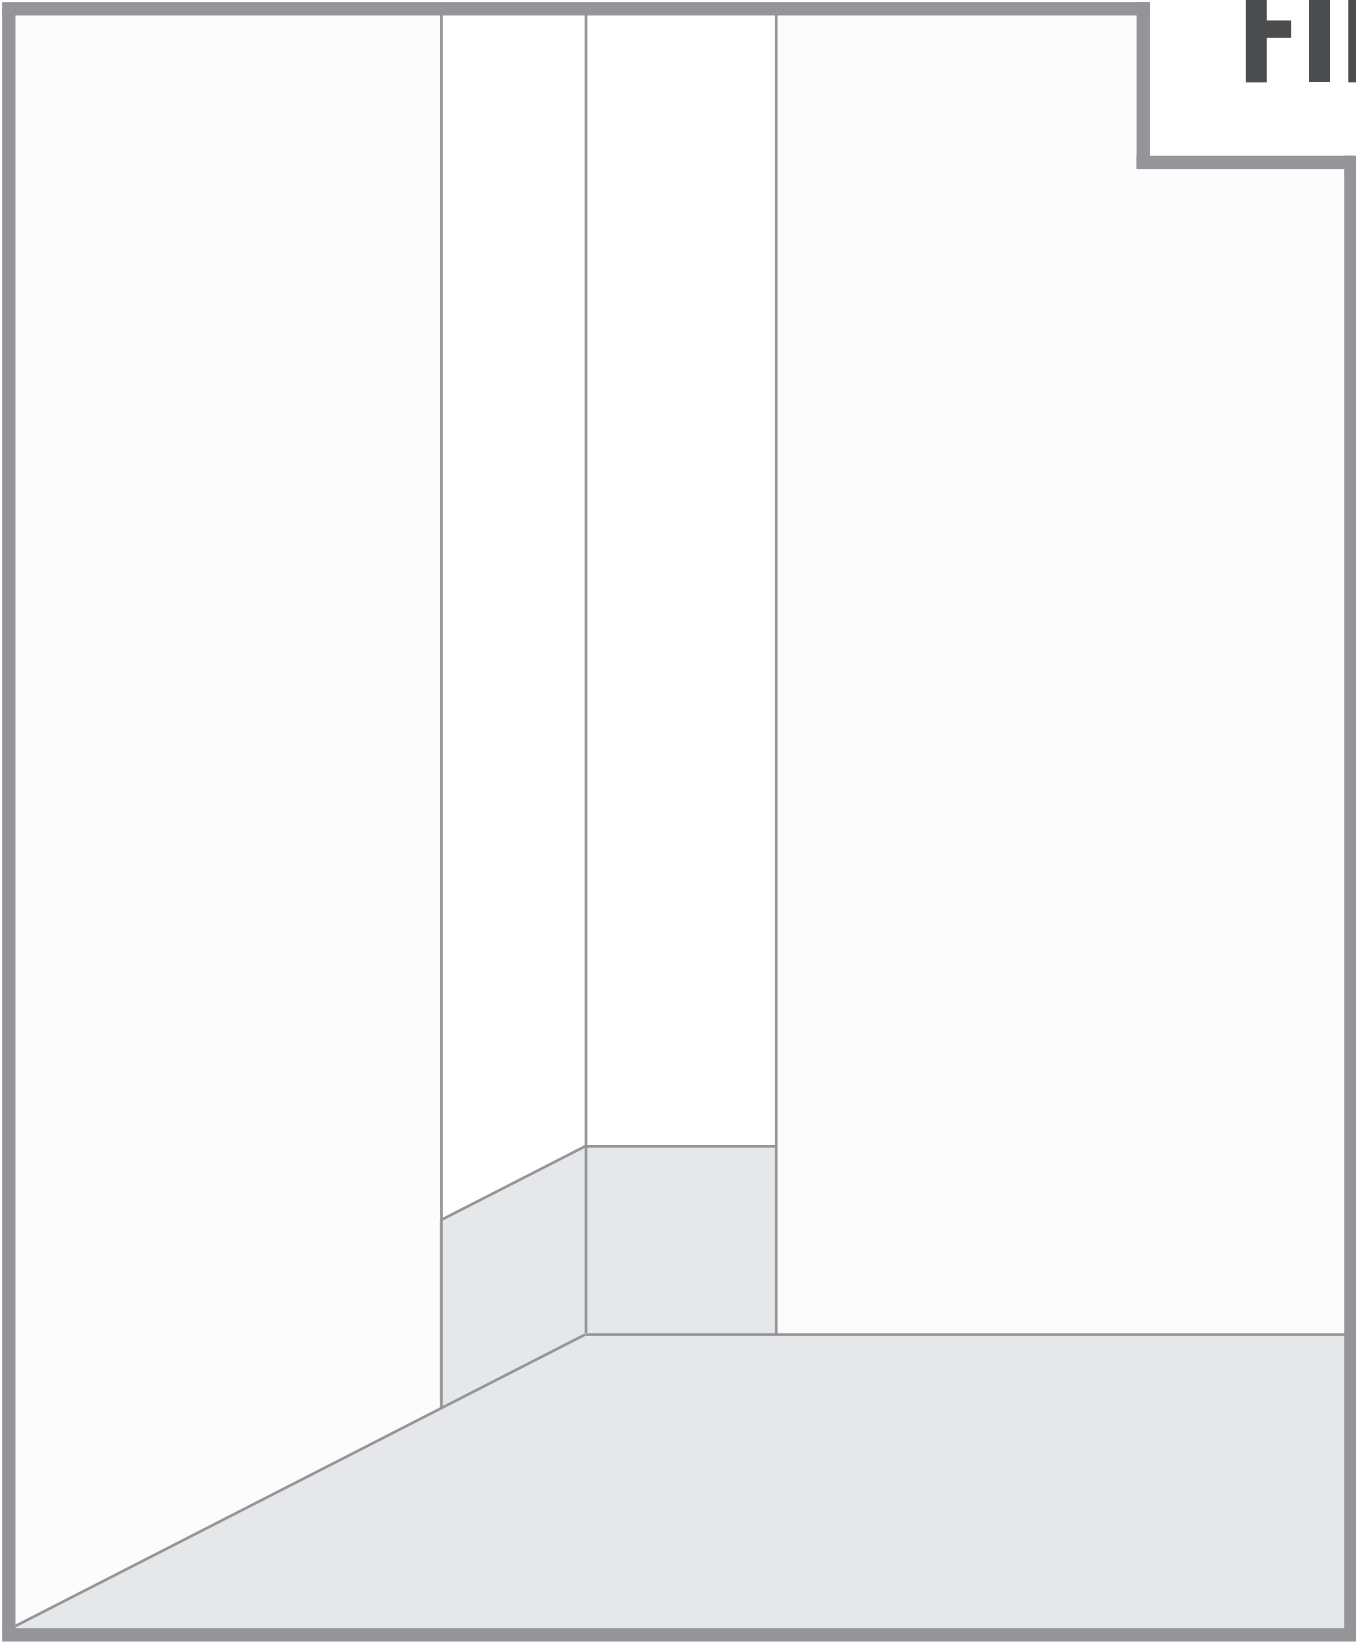

# STEP 7

Once dry and using your soft graphite pencil, trace the meeting point of your left and right walls.  
Retrace all lines made in previous steps and clean up any smudges or misplaced lines.

**FIN**
